## ENGINEERED HARDWOOD

Project a bold and aged appearance for contrast in your modern home or for tone in your classic abode. These 7.5" wide planks are made from rustic grade European white oak with a thick wear layer, micro-bevel edges, and an oil finish for a more natural, aged appearance.

Smooth, wire brushing, or hand-distressed face treatments help to further customize your ambiance. Full of exquisite rustic charm and European elegance, this timeless collection is an architect and designer's dream come true!

CHRISHELL

Due to the natural variations of color and grain patterns inherent in wood, our flooring products will vary from plank to plank and may be slightly different than this sample.
