Varies: Please Ask Sales Representative or
See Website Warranty for Details

Edge Detail: Micro-Beveled

Villa Gialla

ENGINEERED HARDWOOD

Transport yourself into a luxurious Italian villa with this beautiful and charming collection.

One of the widest and longest of our European oak lines, with planks that are 9.5 inch wide, primarily 7 feet 3 inches long, and have an exceptionally thick 4 mm wear layer.

Most colors are finished with a very low-sheen urethane for a matte finished look. Alternatively, Romantique and La Belle are finished with WOCA Oil for the same finished look. The powerful yet subdued colors are wire-brushed and hand-distressed, making this the ultimate flooring for a modern and elegant space.

Come see these stunning hardwood colors up close and personal in a showroom near you! The unique tones and graining are unlike any other hardwood on the market today.

CATANIA

Due to the natural variations of color and grain patterns inherent in wood, our flooring products will vary from plank to plank and may be slightly different than this sample.
