

# ARTFULLY DESIGNED

## LAMINATE

With high-shade variation, saw-cut distressing and organic markings, Mohawk's Artfully Designed Collection sets the standard in natural, reclaimed hardwood feel. Captured in four creative saw-cut styles including Aged Cabin, English Biscotti, Grey Castle and Misty Barn, these ombré planks present true artistic inspiration in authentic wood fashion. Subtle tonal variation and various hardwood colors produce the creative, mixed installations that have grown increasingly popular. Inconsistent distressing along with subtle saw marks as well as heavy markings throughout deliver planks that feel truly organic. Unmatched hardwood realism is found in single plank visuals complete with an all-over saw-cut texture and matte finish. Featuring milled bevel edges and ends, Artfully Designed is available in 6 1/8" x 47 1/4" x 12 MM plank size.

Made in the USA, the Artfully Designed Collection ensures that your laminates remain more resistant to micro-scratches with ScratchGuard Advanced Finish. And by featuring UniClic® technology, the industry's leading glueless locking system, installation is quick and easy. The locking system also helps prevent water damage and warping. Floating installation allows for convenient installation of floors, above or below grade. The Limited Lifetime Residential Warranty guarantees that once installed, these stunning floors will stay that way.
