

BAYVIEW

REVWOOD

Bayview provides authentic wood looks that are built to withstand real life. Rich grain detail and slight distressing are embossed in register to enhance the collection's exceptional realism.

A variety of species, including oak, hickory and chestnut come in trending colors ranging from warm browns to cooler grays in both lighter and darker tones to work with any decor.

Made in the USA, RevWood's ScratchGuard finish protects the beautiful 4-7/8" x 47-1/4" planks from micro-scratches, and Uniclic® technology makes installation quick and easy.
