

SAWMILL RIDGE

REVWOOD PLUS

A new RevWood Plus introduction from Mohawk, Sawmill Ridge features trending reclaimed hardwood visuals in four fashionable colors that coordinate with a variety of today's design styles.

Natural wood character is enhanced with deep texture to highlight knots and varied grain patterns. Radial saw marks add rustic charm, inspired by vintage hardwood planks with chatter from early sawmills.

RevWood Plus' GenuEdge™ pressed bevel with Hydroseal™ top coat and the tight Uniclic locking joints work in unison to protect your floor giving you peace of mind with the All Pet warranty and a limited lifetime moisture warranty. The 6-1/8" wide and 47-1/4" long planks are 12mm thick and made in the USA.
