

METROPOLITAN LIGHTS

HARDWOOD

Mohawk's Metropolitan Lights offers the premium visual of solid oak in coveted longer, wider formats. From the milling of the hardwood logs to the specialized staining process, everything about Metropolitan Lights celebrates the wood's inherent beauty, so every board in the floor is unique.

Metropolitan Lights is sawn to reveal more of the oak's natural and distinctive character as often found in fine Craftsman furniture. The planks are then wire brushed for a subtly distressed appearance, and the ultra-low-gloss TruFinish™ with EasyCare™ hides scuffs and prevents day-to-day grit and grime from building up for easy maintenance.

Metropolitan Lights's soft and highly desirable hues are achieved with our Natural Alchemy, a process which reacts with the hardwood's natural tannins to produce wildly varying colors. This process highlights the wood's own characteristics, so no two boards look the same. Made in America, the 7" planks come up to 7' long, built with our patented Enhanced Engineered Construction™ and backed by a 50-year finish warranty.
